

Our Intermediate Level Dance Program

Intermediate 1 Level (Ages 8-10)

Intermediate 1 dancers experience a focused curriculum based on technique, strength, flexibility, and movement. This level “sets the stage” for their future training, and dancers are now encouraged to take several different styles to balance their training. Classes are bundled each day to encourage multiple style training. All classes are held at our "Studio 2" or Studio 3" location.

If there is a studio change teachers or assistants can walk the dancers to their next class.
